

Taking the legacy of RMT 117 Paving Breaker forward, RMT 117L jackhammer delivers the same reliability and power as RMT 117. This demolition tool comes with “Latch type retainer” instead of “Spring type retainer” which increases the safety of the operator. It helps in quicker change of working tool and thus saves the time of the operator.

### What is good about it?

- Latch type retainer
- Easy access to daily service points
- Inbuilt lubrication system
- Easily manoeuvrable

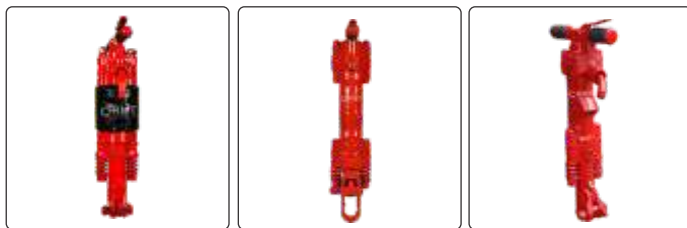

### Where it is used?

- Extra Heavy Duty Concrete Demolition
- Consolidating and ramming backfill and earth
